

## Specification Sheet

### Monoclonal antibody against Ferritin

|                          |                                                                                                                                                        |
|--------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>CODE:</b>             | 8MFer1                                                                                                                                                 |
| <b>CLONE:</b>            | Hyb-Fer1 (solid)                                                                                                                                       |
| <b>SPECIFICITY:</b>      | Human Ferritin                                                                                                                                         |
| <b>IMMUNOGEN:</b>        | Human Ferritin                                                                                                                                         |
| <b>TYPE/SUBTYPE:</b>     | IgG2b $\kappa$                                                                                                                                         |
| <b>APPLICATIONS:</b>     | Sandwich ELISA (This antibody can be used as a capture antibody in a human Ferritin ELISA in combination with biotinylated, monoclonal antibody Fer2.) |
| <b>FORMAT:</b>           | Purified immunoglobulin from BALB/C Mouse Ascites<br>(Affinity chromatography)                                                                         |
| <b>PRESENTATION:</b>     | Liquid in 15mM Phosphate buffer containing 0.15M NaCl,<br>0.09% sodium azide, pH 7.2                                                                   |
| <b>STORAGE/HANDLING:</b> | 2 to 8°C, Maintain at -70°C for up to 36 months. Avoid repeated freeze/thaw cycle.                                                                     |
