

Purified recombinant hepatitis B virus core antigen Data Sheet

Product Name: recombinant HBc Ag

Lot Number: ABX

Purification Method: Sucrose density gradient centrifugation

Appearance of liquid: Cloudy

Purity: XX% (SDS-PAGE)

Quantity: XX mL/tubu

Protein Concentration: XX mg/mL (mBCA)

Product Form: Purified recombinant HBc Ag in 10mM,pH7.2 PBS with 0.1%NaN<sub>3</sub>

Storage:  $\leq -70^{\circ}\text{C}$  , 12 months from date of delivery
